

# Custom Canopy

## Setup instructions

Place tent graphic in center of the area to be sheltered. Have 2 people stand on opposite sides, grasp two outer legs, lift up and step backwards, stopping at arms length.

Grasp at the bottom of the canopy tent on opposite sides, as shown. Lift up and step backwards until tent is fully opened.

**Note:** For 20' x 10' tent each person should move to middle leg of 20ft side . Grasp bottom of the tent, lift up and step backwards at the same time until tent is fully opened.

Engage the push button at each corner by pushing up with one hand while holding down top of leg with the other hand. Push button will engage in the hole by locking in.

Lift two adjacent outer legs up and pull out the inner legs until snap locks. Repeat on all legs. Raise or level the tent using push button found near bottom of each

### IMPORTANT

- Windy Condition** - Use stake kit or Sand bags.
- Heavy Wind** - Take tent down.
- Wet Fabric** - Let tent dry before closing.
- Storage** - Use cover bag when not in use.
- Rain** - Do not leave tent unattended.

## Closing instructions

Lift outer legs slightly, then depress the puch button telescope inner legs up into outer legs. Repeat on opposite side.

**Cont'd in the next page.**

Release push button at each corner to release pressure on slider. Repeat on all four corners.

Grasp top of the tent on opposite sides. Lift and shake the tent. Step forward towards your partner until the tent is 3/4 closed. Grasp two outer legs, push together till tent is fully closed.

# Custom Canopy Flag Holder - Optional

## Setup instructions

Disassemble the flag holder from the flag pole.

Clamp the flag holder around the canopy pole and leave the screw slightly loose for final height adjustment.

Make height adjustment by sliding the flag holder up and down and tighten the large screws.

Insert the flag pole from the top, tighten the screw from the bottom.

Insert the canopy flag into the flag pole and make the adjustments to stand out.

And you are done!
